# Letter to Shareholders

## from the Executive Chairman

I am delighted and privileged to communicate with our esteemed shareholder family for the year in retrospect and our journey going forward. Year 2014 has reserved its place in our Country's history books as the year of definitive change and transition. The election ushered in a new leadership with a mission to reboot the economy, deliver stability and efficient governance and proved vibrancy of Indian democracy, much essential for economic development. Priorities have been scripted as a 10 point agenda that includes being people oriented, building confidence in the bureaucracy, increasing investment, particularly in infrastructure, and implementing policy in a time bound manner.

Within this environment of hope and enthusiasm your company has held on to the theme of capital preservation. Your Company continued to hold its investments in the following sectors viz., Media, Power, Banking, Non-Banking Finance Company and Real Estate.

### **Overview and sectorial performance of investments:**

#### **Media**

Your Company believes that it is well poised to take advantage of the major changes taking place in the cable and broadcasting industry. The lead position held by the Company's subsidiary in the cable industry, coupled with the HITS (Headend in The Sky) project that the media business of the Company is embarking on, will in the years to come ensure that your Company emerges as the 'best in class' content delivery platform that would reach a diverse pan-India TV audience.

#### **IndusInd Media & Communications Limited (IMCL)**

During the year, your Company's principal subsidiary i.e. IMCL has successfully managed digitalization in the Phase I and II. IMCL has converted over 2.5 million analogue homes into digital homes. IMCL is present in over 36 cities in India including metros and major cities.

The industry is now shifting focus to areas of value added services, collection processes, etc It has been now focussing on providing customer delight through provision of value added services, customer choice in viewership through packaging and bundling, ease in payments etc. On the operational side, introduction of pre-paid, online payment and similar mechanisms will eventually deliver higher ARPU and improve collection efficiencies.

#### **Grant Investrade Limited (Grant)**

The Company is also undertaking content delivery through an alternate technology with launch of HITS. Grant Investrade Limited, a wholly owned subsidiary of the Company has been granted permission by Ministry of Information and Broadcasting (MIB) to launch HITS. This would enable Grant Investrade Limited to reach through the entire geography of India. HITS would principally offer Infrastructure services of retransmission and backend services to hundreds of Local Cable Operators (LCOs) without disturbing their current status. HITS will be a cost effective platform for many LCOs. HITS project is expected to go live by the fourth quarter of this fiscal and have a full year's operation in FY 16.

### Corporate Social Responsibility

#### Mobile Medical Units

This year also, your Company has generously funded the Hinduja Foundation in implementing its mobile health care project targeting the rural poor in the tribal areas of Thane district. The project focuses on providing access to basic health care facilities for tribal people. This marks the continuation of our efforts to help the society at large in a tangible manner specially the underprivileged sections of the Society.

### Way forward

Your Company remains committed to creating shareholder value through selective and judicious approach. The green-field coal based 1040 MW (2 x 520 MW) Thermal Power Project in Visakhapatnam is at the advanced stage of construction. Both Unit-I and Unit-II of the project have achieved Boiler Light-Up milestone and is expected to get commissioned this year. Power generated from the project shall be sold to state distribution companies at regulated tariff with assured returns, translating into value accretion for its investors. It continues to hold a 10% economic interest in the Project Company. Similarly, the other investments made in Non Banking Finance Company and Banking space have continued to grow year-on-year adding value to investor wealth.

The Company would pursue attaining a leadership position in content delivery no sooner the transition phase is complete and stability in business case improves. The Company would seek alternative modes of delivery through HITS platform to bring about disruptive change, the way business is done today. Combination of these strategies would bring its desired results and the Company would use its decades of experience to bring smooth transition through effective use of strategy and technology. With the advent of digital addressability, the Company would also seek to monetise its Media Investments by listing them to bring value creation for its shareholders.

I would like to place on record my sincere appreciation of your unstinted support to the Company. I would also like to thank the Directors, Management and Employees for the good performance registered. Also my thanks go out to our Bankers, Auditors and Advisors for their help and guidance during the year to maintain the highest standards of corporate governance, a top priority for the Group.

Yours sincerely,

Ashok P. Hinduja

## REVIEW OF INDIAN ECONOMY

As per the Monetary Policy Statement of Reserve Bank of India for 2014-15, 'Real' GDP growth is expected to pick up from a little below 5% in 2013-14 to a range of 5% to 6% in 2014-15 though with downside risks to the central estimate of 5.5%. Easing of domestic supply bottlenecks and progress on the implementation of stalled projects already cleared should contribute to growth and stronger anticipated export growth as the world economy picks up. Despite some positive movement in more recent data, industrial activity continues to be a drag on the economy, with retrenchment in both consumption and investment demand reflected in the contraction of output of consumer durables as well as capital goods. Indian ratings maintains a stable outlook on state government finances, as it expects consolidated state finances to remain resilient to the ongoing economic slowdown. Uncertain forecast of Monsoon and erratic rains could be a dampener.

### INVESTMENTS

#### Hinduja Energy (India) Limited:

India is the fifth largest producer and consumer of electricity in the world, after China, US, Russia and Japan. Power generation has grown more than 100 fold since independence, while demand growth has been even higher due to accelerated economic activity. The total installed capacity in the country crossed 250 GW, out of which close to 69% is thermal power generation capacity. Private sector contributes over 35% of this capacity while rest belongs to central as well as state utilities. It is expected that the contribution of private sector shall continue to increase. The sector went through a sluggish phase for the last 2-3 years due to policy uncertainties and fuel shortage. However, the new central government has taken certain constructive measures to mobilise the projects that have been delayed/stalled for various reasons. Emphasis is being given on assured fuel availability and incentives are being given for renewable energy sector. This has already started boosting the confidence of the investors. Hinduja Group with its vision to achieve 10,000 MW capacity wants to be a significant private sector player in the Indian power sector.

HNPCL's greenfield 1040 MW Thermal Power Project in Visakhapatnam is expected to get commissioned in FY 15 thus creating value for its investors from this year onwards. The Company in the process has developed a competent project execution team with strong techno-commercial expertise for future power projects. HEIL through its joint venture company Steag O&M Company Ltd is also developing a team for the Operations & Maintenance (O&M) of the Vizag Power Project, that will be further augmented to carry out the O&M of the future power projects of the Group as well as other third party power projects outside the Group.

During the year, power investments were consolidated into the Company by acquisition of shares of HEIL from its subsidiary Grant Investrade Limited. This has released much needed capital in Grant Investrade Limited level to develop its new Media business by deploying Headend In the Sky technology.

### SUBSIDIARIES

#### Media:

#### Grant Investrade Limited (GIL):

GIL had applied for Headend In the Sky (HITS) permission, which was granted during the year, by the Ministry of Information & Broadcasting. GIL now awaits the wireless operational license. The Company has capitalised GIL with ₹ 100 crore Preference Capital to spearhead the HITS business.

With the mandate of Digitalization from the Government of India, a number of cable operators find themselves having to move from a B2B model to a B2C model which is now consumer centric. Apart from considering their financial resources and size, they will find it difficult to be able to muster and provide quality digital services with multiple choices to their customers and compete with other providers like Direct to Home (DTH) who have well established customer friendly services.

Considering the above, your Company thought it appropriate to launch a "White Lable Service" model to the large number of cable operators through a HITS model, through this the company would provide quality backend services stipulated by TRAI. GIL is expected to fill the gap and supplement Cable operations especially in Phase III and IV and grow instantly throughout India. GIL has commenced project activities for launch of HITS platform and the business is expected to go live by March 2015.

#### IndusInd Media & Communications Limited (IMCL):

IMCL needs funds for consolidation in Phase I and Phase II and to digitalise network in Phase III and Phase IV. Hence for providing funding support your Company has made an investment of ₹ 10,000 Lacs in IMCL by purchasing 10%, Redeemable Cumulative Preference Shares of ₹ 10/-.

IMCL successfully completed digitization of its networks in Phase I and II of the Governments mandatory digitization process. IMCL now provides digital service to its subscribers in over 21 cities.

IMCL consolidated EBIDTA for the year stood at ₹ 2,606.81 Lacs as against ₹ 14,114.78 Lacs in the previous year Consolidated Total Income grew by 4.43% from ₹ 61,061.95 Lacs to ₹ 63,891.65 Lacs.

IMCL has over 2.3 million digital customers and plans to convert its entire base of customers to digital in the next 2 years.

The IMCL infrastructure is adequately geared to meet the opportunity presented by mandatory Digital Addressable System (DAS) and is currently supported by 10,000 kms of hybrid fibre optic cable network, which includes 2,000 kms of underground fibre.

IMCL has announced various packages in its digital platform and also commenced High Definition TV services (HD). IMCL remains committed to its customers to bring out the best of the technology for digital viewing over its cable networks. It now offers over 350 Standard Definition channels (SD) and over 20 High definition channels (HD) in key markets under the brand name INDIGITAL. There are also plans to introduce Value Added Services (VAS) digital cable.

#### Synergy in Media Business:

All back-end services viz. CAS, SMS, IT [Corporate & network] will be provided by the HITS platform to IMCL. GHITS will also provide specialist services like "TV Everywhere" and "Value-Added Services" (VAS) to IMCL.

1. IMCL will not need to incur capital expenditure for the back-end and upgrade costs to digital head-ends. IMCL will also benefit from lower operating costs for:
  - a. DHE manpower & operation, including AMCs where applicable
  - b. Back-end staffing
  - c. Administrative expenses
  - d. Power & fuel
  - e. Multi-lingual call centre set-up costs & operation
2. There will be additional savings on administrative expenses by combining of functions like HR, legal etc.
3. IMCL will be the anchor customers for the HITS platform. IMCL will provide HITS platform the ready customer base it requires that will enable HITS platform to break even much faster.

#### FUTURE OUTLOOK – MEDIA & CABLE TV SECTOR

In calendar year 2013, the Indian Media & Entertainment (M&E) industry registered a growth of 11.8% over 2012 and touched INR 918 billion.

Overall growth remained muted, largely caused by the slowdown of the Indian economy. The

economic slowdown impacted advertising revenue dependent sectors such as TV and print the depreciation in the rupee also affected print, cable and DTH companies adversely but helped export oriented sectors such as animation and VFX to some degree. At the same time, this was countered by the impact of continued digitization of media products and services, and growth in regional media.

Digitization of cable saw progress of Television industry moving in the right direction, with the mandatory Digital Access System (DAS) rollout almost complete in Phase II cities. The impact was felt to the extent that carriage fees saw a reduction of 15-20% overall, however the anticipated increase in ARPU and subscription revenues for broadcasters and MSOs (Multi System Operators) is expected to be realized only over the next 2-3 years. Broadcaster revenue also increased by 35-40%, however also revenue has only increased marginally, as the DAS environment is still settling down.

ARPU are expected to gradually increase over the next 2 years. Other key highlights in 2013 were the inclusion of LC1 (less than class I) markets in TV ratings, the 12 minute advertising cap ruling and the shift from TRP to TVT ratings. The recent Telecom Regulatory Authority of India regulation on dissolution of aggregators for Broadcast channels is likely to allow more flexibility in packaging.

Year 2013 was a year in which many parts of the M&E industry paused and took stock. Focus shifted from top line growth to bottom line growth with companies focusing on operations and efficiency. In spite of a very challenging macro environment, the industry grew 12%, a far better performance than many other industries. The structural changes taking place in the industry especially in television and digital, continued to take the industry down the path of fulfilling its potential.

#### Broadcasting & Distribution:

- The benefit of Phase I and Phase II digitalization in terms of growth in subscription revenues is expected to be seen over 2014 and 2015.
- Growth is expected to be driven, through packaging in subscription revenues, while carriage costs are expected to rationalize in metro markets.

### Distribution:

- Phase I of cable digitalization kick-started and met with varying degrees of success in the four metros. However, the consumer has warmed up to the concept of digitalization.
- Phase II has already started. Out of the 38 cities identified for Phase II digitalization, approximately 80% of C&S households are already digitalized and the balance are likely to be completed in next six months.

On the new digital environment, MSOs also will have the capability to directly add the Customer. LCOs will be crucial to customer interactions and day-to-day management. Therefore LCOs relationship management remains crucial for MSOs. With 74% FDI recently granted to digital cable sector, there is increasing interest of private equity funds and foreign investment in these sectors.

## MEDIA

### Media & Entertainment (M&E) Industry Update:

India's M&E industry reaches millions of people. There are 161 million TV households, 94,067 newspapers (12,511 dailies), close to 2,000 multiplexes, 214 million internet users out of which 130 million are mobile internet users, all these are platforms that can drive change and be transformational catalysts.

In television, industry structures began the process of realignment, with MSOs and LCOs in a delicate dance to re-evolve their relationship. Several regulations including the advertisement cap and notifications around aggregators were announced, that will likely change how the industry does business. Digitization has yet to deliver its promise with set top boxes seeded in Phase I and II cities but with packaging and ARPU increases based on customer acceptance of packages yet to kick in. The future though, looks promising, with efforts being made by MSOs to introduce channel packaging, implement subscriber management systems and raise the ARPU – initiatives that are likely to benefit all the stakeholders in the television ecosystem especially the viewers.

Films had slower growth in 2013-14, than in 2012-13 and returned to the mean as far as growth rates go. Multiplex expansion, ticket prices growth and the expansion of digital screens are all likely to slow down in the near term challenging the industry to find new avenues to maintain momentum. However, India is a heavily under-screened country and the macro story for the film industry remains strong.

The print sector had a comfortable year – especially regional print, with English print struggling on the ad revenue front.

The second screen format will create a new revenue stream with advent of more and more

smart phones and tablets. Advertising remained steady.

Radio had a good year with better long term prospects. The industry continues to require regulatory interventions as it is in dire need of reform. FM radio nevertheless, is now becoming an integral part of many media plans.

The big hope for the future of the M&E industry continues to be digital formats. With a fast growing internet user base of over 200 million internet users, the potential of the industry to enhance engagement with customers and generate revenue from digital.

## Television Industry

**Television:** Digitisation of cable saw the television industry still on the path of progress, with the mandatory Digital Access System (DAS) rollout almost complete in Phase I and II cities. The impact was felt to the extent that carriage fees saw a reduction of 15-20% overall while subscription fees going up for content aggregators.

However the anticipated increase in ARPUs and subscription revenues for broadcasters and MSOs (Multi System Operators) is expected to be realised only over the next 2-3 years as MSOs begin the process of becoming B2C model from B2B model and convince customers to accept segmented offerings and differentiated packages.

### Outlook for Pay TV market:

Digitalization is providing new impetus for growth and value in India though India is still early in the value creation process. While close to 28 million households across India have been seeded with cable STBs, monetization and ROI has been painfully slow, making the over ₹ 5,000 crores investment in capital expenditure by MSOs appear to be an extremely expensive cost of capital.

High levels of receivables and low levels of liquidity amongst MSOs needs redressal positive turnaround is expected in billing in FY-2014-15.

As the digital distribution ecosystem takes shape, a coherent licensing regime is being enabled, anchored to full subscriber declaration and payment of taxes as well as a stipulation that the billing of TV subscribers will move from unorganized LCOs to organized addressable MSOs.

## SWOT Analysis: IMCL

### 1) Strengths:

- IMCL has successfully completed cable digitalisation in Phase I and Phase II for 21 cities as a National MSOs. IMCL is a pioneering MSOs with a national presence in 36 cities presently.

- Has significant presence in high ARPU's and high TRP cities.
  - State of Art Technology. International technology partners.
  - Professional and experienced management in place.
  - Well-developed infrastructure in Fibre and digital Headends across India.
- 2) Challenges:
- To ensure higher collection from the LCOs in a co-operative digitalised environment.
  - More Capital outlays are required to consolidate Phase I and II and digitalize Phase III and IV.
  - LCOs relationship management, in view of digitalization will be important, as they will have to declare 100% of their subscriber base.
  - It is necessary for MSOs to make new revenue partnerships in subscription driven business for cable and broadband with LCOs.
  - To scale up the Digital universe and to ensure all technology and process is in the right place at the right time.
  - Logistics and support systems for the Digital Set top boxes need improvement.
  - Quality of Service issues in the last mile have to be jointly addressed.
- 3) Opportunities:
- Increase in ARPU from IMCL's major cities like Mumbai, Delhi, Bangalore, Kolkata, Ahmedabad etc. IMCL networks reach a sizeable percentage of higher socio-economic groups in these large cities.
  - In the first two phases, around 21 cities of IMCL, are now completely digitalized.
  - With the new Broadband policy and digitalization, IMCL can and will exponentially increase its broadband business.
  - New revenue streams will open up from value-added services like Pay per View (PPV), Video on Demand (VoD), Gaming and more. This will necessitate prepaid billing.
  - Packaging and tiering of services will increase ARPUs.
  - HITS platform does not have any restrictions on the geography or number of subscribers. The HITS signal will be available through satellite across India
- from the day of the launch, and it can be provided to any number of cable operators.
- The launch of HITS platform will provide IMCL with a capability to quickly spread to any part of the country.
  - HITS will also directly enter into agreements with LCO/ICO/MSO for providing white label services.
  - Due to the above factors, there is likely to be a substantial increase in the subscriber base of the company.
- 4) Threats:
- Entry and expansion of some National MSOs in markets new for them and where IMCL has an important stake.
  - Role of well managed but cost effective regional MSOs will grow in Phase III and IV.
  - Competition from other platforms, mainly DTH.
  - Vertically linked MSOs of Broadcasters may try to take undue advantage in pricing and tiering of channels though disaggregation regulations will help in minimising this threat.
  - Cities in Phase III of digitalisation need significant capital upgradation.

### TREASURY

Government managed to bring the current account deficit in 2013-14 down to \$32 billion, or 1.7% of gross domestic product, compared with the \$45 billion estimated in the interim Budget in February and \$35 billion projected towards the end of March, economy would become stronger from here, adding the recent spurt in stock markets was a reflection of investors confidence about the stability and strength of India's economy. The Company thus may not gain significantly in equity portfolio as much as it maintains returns on debt.

### REAL ESTATE

HVL owns two pieces of land, one in Bengaluru and the other through its wholly owned subsidiary IDL Specialty Chemicals Limited in Hyderabad.

# Notes forming part of the Financial Statements for the year ended 31<sup>st</sup> March, 2014

## 1 Significant accounting policies

### a) Basis of Accounting

The financial statements are prepared under the historical cost convention in accordance with generally accepted accounting principles in India, applicable accounting standards and provisions of the Companies Act, 1956 ("The 1956 Act") (which continue to be applicable in respect of Section 133 of the Companies Act, 2013 ("The 2013 Act") in terms of General Circular 15/2013 dated 13th Sept. 2013 of the Ministry of Corporate Affairs).

### b) Use of Estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Difference between the actual results and the estimates are recognised in the period in which the results are known / materialise.

### c) Fixed Assets

Fixed assets are stated at cost of acquisition, which includes taxes and duties (net of cenvat), including any cost attributable to bringing the asset to its working condition for its intended use, less accumulated depreciation.

### d) Impairment of Assets

The Company assesses at each Balance Sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or recoverable amount of the cash-generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction, if any, is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the Balance Sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at recoverable amount.

### e) Depreciation and Amortisation

#### i) Tangible Assets:

Depreciation on assets is provided on straight line method on pro-rata basis at the rates prescribed under Schedule XIV to the Act. Assets costing less than ₹ 5,000 each are depreciated fully in the year of acquisition.

#### ii) Intangible Assets:

# Notes forming part of the Consolidated Financial Statements for the year ended 31<sup>st</sup> March, 2014

## 1. Significant accounting policies

### a) Basis of Accounting

The consolidated financial statements of the Company and its subsidiaries and jointly controlled entity (together the 'Group') are prepared under the historical cost convention in accordance with generally accepted accounting principles in India, applicable accounting standards and provisions of the Companies Act, 1956 ("The 1956 Act") (which continue to be applicable in respect of Section 133 of the Companies Act, 2013 ("The 2013 Act") in terms of General Circular 15/2013 dated 13th Sept 2013 of the Ministry of Corporate Affairs).

### b) Principles of Consolidation

The Consolidated Financial Statements relate to Hinduja Ventures Limited (the 'Company'/'HVL'/'Parent') and its direct and indirect subsidiaries, associate Company and jointly controlled entity (collectively referred to as 'the Group'). The consolidated financial statements have been prepared using uniform accounting policies and on the following basis:

- The financial statements of the Company and its subsidiaries have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after eliminating intra-group transactions and intra-group balances and resultant unrealised profits/ losses. The results of the subsidiary undertakings are accounted for in the Consolidated Statement of Profit & Loss from the effective date of acquisition.
- The excess of cost to the Company of its investment in the subsidiaries is recognised in the consolidated financial statements as Goodwill. The excess of the Company's portion of equity and reserves of the subsidiaries as at the time of its investment is treated as Capital Reserve.
- Investments of the Group in associates are accounted as per the Equity Method specified under Accounting Standard 23 – 'Accounting for Investments in Associates in Consolidated Financial Statements'. Accordingly, the share of profit/ loss of each of the associate companies ( the loss being restricted to the cost of investment) has been added to / deducted from the cost of investments.
- Minority Interest in the net assets of the consolidated subsidiaries consist of the amount of equity attributable to the minority shareholders at the date on which investments in the subsidiary companies were made and further movements in their share in the equity, subsequent to the dates of investments. Net profit / loss for the year of the subsidiaries attributable to minority interest is identified and adjusted against the profit after tax of the Group in order to arrive at the income attributable to shareholders of the Company.
- Goodwill arising on consolidation is not amortised but tested for impairment.
- Interests in a jointly controlled entity are reported using Proportionate Consolidation Method as per requirements of Accounting Standard 27 – 'Financial Reporting of Interests in Joint Ventures.'
- The financial statements of the subsidiaries, jointly controlled entity and associate company used in the consolidated financial statements are consolidated from the date of the acquisition and are drawn up to the same reporting date as the Company.

### c) Use of Estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Difference between the actual results and the estimates are recognised in the period in which the results are known/ materialise.

### d) Fixed Assets

Fixed assets are stated at cost of acquisition, which includes taxes and duties (net of cenvat), including any cost attributable to bringing the asset to its working condition for its intended use, less accumulated depreciation.

Land and Building (constituting a single property) at Andheri (East), Mumbai and certain class of Plant and Machinery are reflected at revalued amounts.

Set Top Boxes (STBs) issued to customers are capitalised at cost on issuance/ installation.

Intangible assets are stated at cost of acquisition less amortisation.

### e) Impairment of Assets

The Group assesses at each Balance Sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset. If such recoverable amount of the asset or recoverable amount of the cash-generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction, if any, is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the Balance Sheet date there is an

indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.

**f) Depreciation and Amortisation**

**Tangible Assets**

Depreciation is provided for fixed assets on straight-line method, on month basis, at rates prescribed under Schedule XIV of the Companies Act, 1956. Assets costing less than ₹ 5,000 each are depreciated fully in the year of acquisition. Set Top Boxes are depreciated over a period of five years on straight-line basis. Leasehold land is amortised over the balance period of lease in equal annual instalments. Leasehold Improvements are amortised over the primary period of lease.

**Intangible Assets**

Computer Software is amortised over the period of six years on straight-line basis.

Network rights are amortised over the period of ten years on straight-line basis.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Group. Segments are identified having regard to the dominant source and nature of risks and returns and internal organisation and management structure.

### **o) Leases**

- (i) Assets acquired under lease where substantially all the risks and rewards of ownership are retained by the Group are classified as Finance Leases. Such assets are capitalised at the inception of the lease at the lower of the fair value or the present value of minimum lease payments. Assets acquired under finance lease are depreciated on straight line basis over the lease term.
- (ii) Assets acquired on lease where a significant portion of the risks and rewards of the ownership are retained by the lessor are classified as Operating Leases. Lease rentals are charged to the Statement of Profit and Loss on straight line basis over the lease term.
- (iii) Assets given under finance lease are recognised as a receivable at an amount equal to the net investment in the lease. The principal amount received reduces the net investment in the lease and interest is recognised as revenue. Initial direct costs are recognised immediately in the Statement of Profit and Loss.
- (iv) Assets given under operating leases are capitalised. Rental Income is recognised on straight line basis over the lease term.

- a. Entertainment Duty on LCO Points (Delhi)**

The Entertainment Tax ('ET') Authorities in Delhi, vide letter dated 17/12/2013, shifted the onus to pay the Entertainment Duty (ET) of Franchisee Points on Multi System Operators (MSO). Based on which ET Authorities issued a demand Notice to a subsidiary company, IndusInd Media & Communications Limited (IMCL) for ₹ 379.70Lacs (including Interest and Penalty) towards entertainment duty for the period April - 13 to May - 13. IMCL has preferred an Appeal before the Dy. Commissioner of Taxes – Delhi, which was rejected by the Appellate Authorities. IMCL has filed a WRIT petition before the Delhi High Court and obtained a temporary stay on the recovery proceedings and on that basis company is of the opinion that liability for payment of ET on LCO points for the period April -13 to March – 14 is not required to be provided in its books.

## Notes forming part of the Consolidated Financial Statements for the year ended 31<sup>st</sup> March, 2014

### b. Entertainment Duty on LCO Points (Maharashtra)

The Maharashtra Government issued Resolution No. - ENT2013/PK59/T-1 ('GR') putting the onus to pay the ET on franchisee points on Multi System Operators (MSO).

Accordingly the ET authorities issued demand Notices of ₹ 729.58 Lacs relating to Mumbai, Nagpur and Nashik to IMCL. In response to a demand notice issued by the ET authorities in Nagpur, IMCL has filed a writ petition with Bombay High Court (Nagpur Bench) challenging the order of Collector and the validity of GR dated 07/03/2013. The same is pending before the High Court. In the interim, High Court has stayed any recovery proceeding against IMCL.

Further, IMCL has also received demand notices in various cities in Maharashtra for the period April – 2013 to December– 2013. IMCL has filed its representation before respective Entertainment Tax Authorities indicating that the shifting of the liability of Tax on MSO is inappropriate as Maharashtra Entertainment Duty act defines only LCO as owner of Cable network and the same has not been amended. Meanwhile Other MSOs and LCO Associations in Mumbai and Nashik have also preferred WRITs in Bombay High Court against the validity of GR, which, in the interim, has directed the LCOs to deposit the Entertainment Tax directly to the Entertainment Authorities or through the High Court. In view of the directions of the Court, the Government of Maharashtra has issued a fresh GR on 19/10/2013 requiring LCOs to remit the Entertainment Duty to ET Authorities by filing a joint declaration (affidavit) with MSOs till the outcome of the Writ Petitions filed by LCOs / MSOs is known or till Maharashtra Entertainment Duty Act, 1923 is amended.

Meanwhile Government of Maharashtra has vide an Ordinance dated 10/02/2014 amended the Maharashtra Entertainment Duty Act, 1923 and has defined the term MSO, LCO and cable Operator in the Act. Charging section has been amended to shift the liability to pay the Entertainment Duty on Franchisee Points on MSO. While amending the charging section viz. Section 3 of the Act, Government has introduced a new charging section being Section 3(4)(c) putting the responsibility for collection of entertainment duty on the LCOs, who under the said Section are now required to handover the same to an MSO within a specified time.

The constitutional validity of the Ordinance has been challenged by another MSO and a LCO federation in Maharashtra before the Hon'ble High Court of Bombay. IMCL is also in the process of filing a WRIT before the Bombay High Court.

Based on the above facts and subsisting legal remedy / action in the High Court, IMCL has not considered it necessary to recognise the Entertainment Tax liability on LCO points in its Books as the amount of entertainment tax payable is not ascertainable by IMCL at this stage.

In the opinion of the Board of Directors, the current assets, viz Trade receivables and short term loans and advances have a value on realisation in the ordinary course of business at least equal to the amount at which they are stated in the financial statements and the amounts retained by way of providing for diminution in the value of assets or for any known liability is not in excess of the amounts reasonably necessary for the purpose.
45. As part of its Real estate activity the Company acquired approximately 47 acres of land in Bengaluru from a party in terms of an Agreement to sell. However in view of the fact that the said party, though is in receipt of sales consideration, has not fulfilled his part of the obligation by transferring the title to the said land in the name of the Company, the Company has filed a suit in a civil court in Bengaluru for specific performance of the Agreement of Sale so as to have proper conveyance to the said property in favour of the Company.
46. The Group has recognised Minimum Alternate Tax (MAT) credit for the Company in the current year, which can be carried forward for a period of ten years and set-off against the tax payable when the Company will fall under the normal tax rate. The convincing evidence of obtaining tax credit is supported by subsequent performance of the Company and subsisting business and orders under execution, which will ensure availability of sufficient future taxable income against which the above MAT credit of the Company will be adjusted.
47. With effect from April 1, 2013, IndusInd Media & Communications Limited (IMCL), subsidiary of the Company has opted for accounting of exchange differences arising on restatement of long term foreign currency monetary items under Clause 46A of Accounting Standard 11, The Effects of Changes in Foreign Exchange Rates as per notification no. G.S.R. 914(E) dated December 29, 2011 issued by the Ministry of Corporate Affairs, Government of India. Consequently exchange differences arising on restatement of long term foreign currency monetary items relating to financing the acquisition of depreciable assets are added to or subtracted from the cost of such depreciable assets and depreciated over the balance useful life of the asset and such option being irrevocable once exercised.

Accordingly, the exchange difference of ₹ 588.80 Lacs for the year ended March 31, 2014 (Previous Year NIL) [includes in Capital Work in Progress ₹ 261.07 Lacs for year ended March 31, 2014 (Previous Year NIL)], arising after April 1, 2013 on the reporting of long term foreign currency monetary items at the rates different from those at which they were initially recorded during the period, or reported in previous financial statements, in so far they relate to acquisition of depreciable capital assets, have been added to the cost of assets and shall be depreciated over the balance useful life of the assets.

Up to the last year such exchange differences were charged to the consolidated statement of profit and loss. Due to this change in the accounting policy the loss before tax is lower by ₹ 507.80 Lacs (Previous Year NIL) (Net of Depreciation charge of ₹ 81 Lacs (Previous Year NIL)) for the year ended March 31, 2014.

With effect from April 1, 2013, IMCL has accounted Forward Exchange Contracts as per paragraph 36 of Accounting Standard 11 - Effects of changes in Foreign Exchange Rates.

## Notes forming part of the Consolidated Financial Statements for the year ended 31<sup>st</sup> March, 2014

Exchange differences arising out of restatement of long term foreign currency monetary items and the corresponding forward contracts are added to or subtracted from the cost of depreciable assets as per paragraph 46A of Accounting Standard 11.

In respect of the above forward exchange contracts entered, the difference between the forward rate and the exchange rate (Premium/Discount) at the date of the transaction is recognised as income or expense in the Consolidated Statement of Profit & Loss over the life of such contract.

Any profit / loss arising on cancellation of forward exchange contract is recognised as income or expense of the year.

On adopting paragraph 36 of Accounting Standard 11, the premium on such forward contracts amounting to ₹982.13 Lacs (Previous Year NIL) for the year ended March 31, 2014, has been recognised in the Consolidated Statement of Profit and Loss under the head premium on forward contracts.

Upto the last year the above forward contracts were Marked to Market and corresponding losses were recognised in the consolidated statement of profit and loss. Due to this change in the accounting policy the loss before tax is higher by ₹ 982.13 lacs (Previous Year NIL).

48. Pursuant to the Delhi High Court Order in the matter of a dispute with a Pay Channel Aggregator (PCA) dated April 18, 2014, IMCL a subsidiary of the Company had entered into a Memorandum of understanding (MOU) (without prejudice and under protest) dated April 3, 2013 with a PCA. In terms of the MOU, IMCL was required to pay a fixed monthly licence fee based on a benchmark subscriber base for each city listed in the agreement and in case the Monthly Average Subscriber level exceeds the benchmark subscriber base then IMCL has to pay an additional Licence fee for every subscriber in excess of the benchmark, which shall be Cost Per Subscriber ("CPS") per month multiplied by monthly average subscriber level.

IMCL had recorded and paid the expenses on the basis of a fixed fee till October 31, 2013 on the Directions of the said High Court order. In November 2013 IMCL established its subscriber base and found that Actual Subscriber Base was much lower than agreed in the benchmark base from April 1, 2013 to October 31, 2013 and hence referred the matter to TDSAT.

TDSAT in the interim order passed on January 23, 2014, directed that the company shall make payments of the monthly subscription fee at the rate of CPS per month multiplied by monthly average subscriber base w.e.f. November 1, 2013. Further, IMCL has reversed an amount of ₹ 961 lacs which according to IMCL were paid in excess based on the calculations approved by the TDSAT in its interim order. Further directions from the Courts in this regard are pending.

49. In the matter of certain capital goods imported by IN Network Entertainment Ltd. ('INEL') which amalgamated with IndusInd Media & Communications Limited, a Subsidiary of the Company, from April 1, 2006, the customs authority had raised a demand of duty amounting to ₹102 lacs which was disputed in appeal but paid under protest by INEL. The Company as a successor to INEL has obtained a favorable decision in this regard from Customs, Excise & Service Tax Appellate Tribunal (CESTAT) under an order dated 29th August, 2006. Since the refund of the aforesaid amount was not granted even after several years, the company filed a writ petition in the Mumbai High Court. In its order dated October 11, 2011 the Honorable High Court directed that the refund claim shall be heard and disposed of by the competent Customs Authority. Under the above circumstances the company had recognized as Income an amount of ₹ 85 lacs during the year 2011-12 being interest on the refund amount receivable in terms of Section 27 A of the Customs Act, 1962. The company is pursuing the matter and is hopeful of recovering the claim amounts in full.
50. Previous Year's figures have been regrouped / reclassified wherever necessary to correspond with the current year's classification/ disclosure.
